Dear Ray:

Many thanks for speaking in my Mid-Eastern Civilizations class. I feel bad that the distance and the traffic made the trip such a burden. Your presentation was great! You got across the injustice of the Palestinian suffering without injecting any bitterness, and the fact that most Palestinians are willing to live in peace with Israel. You also helped people become more aware of the prejudice which Arab Americans have to face. I so doing you re-inforced the unit on "stereotypes" which we had at the beginning of the semester.

Thanks, also, for your generous gift of your books. You should receive the stipend by the end of next month since all expenditures go to the Board. If you don't please give me a call. (H) 847- , (O) 847-

Please let Cindy and me know of the date for your next Arab-American writers conference.

Sincerely,

Dr. Stephen S. Infantino,
Professor of Philosophy and Humanities
